# 2011 Project Achievement Award Program

In today's economic times, innovative and durable solutions are critical in fulfilling the needs of America's infrastructure in an efficient and sustainable fashion. Precast concrete pipe and box culverts have served as a vital piece of America's substructure for many years and through many trying times in America's history. However, precast concrete pipe and box culverts continue to evolve and improve to meet the country's needs for the foreseeable future as well. As the products have evolved, so have the opportunities for the inventive application of them to enhance our lives. The ACPA Project Achievement Award recognizes the creativity and excellence displayed in recent precast concrete pipe and box culvert design and installation projects. At next year's meeting of the AASHTO Bridge and Structures Subcommittee in Norfolk, VA, ACPA will be presenting its annual Project Achievement Award. The award will be given to the DOT engineering team that demonstrates the most creative and innovative accomplishment through the use of precast concrete pipe or box culverts. Those that are interested should fill out the entry form contained in this flyer.

We look forward to receiving your application.

Sincerely,

Mark Omelaniec

Chairman of the Board

American Concrete Pipe Association

# 2011 Project Achievement Award Guidelines

## Purpose:

To recognize state DOT Departments and leaders which have demonstrated creative and innovative accomplishments through projects that have been designed utilizing precast concrete pipe or boxes.

Promote public awareness of the activities and contributions of state DOTs and the ACPA and its members.

## Eligibility:

Any state DOT may enter this Award Program. State DOT's and ACPA members may submit projects jointly or separately. ACPA members submitting projects separately must obtain the signature of the state DOT on their Entry Form.

## Schedule:

Application Packets/Entry Forms Due: March 1, 2011

Notification of Winners: May 1, 2011

Awards Presentation: During AASHTO Bridge and Structures Subcommittee meeting in Virginia.

## General Criteria:

All entries must involve a DOT project utilizing precast concrete pipe and/or four-sided box culverts and be submitted in accordance with the rules outlined in this document.

A state DOT or ACPA member may enter as many qualified projects as they wish.

Projects that have received awards from other organizations may be entered.

Projects must have been completed and in use between January 1, 2006 and December 31, 2010.

Entries must comply with Submission Guidelines section of this document. Failure to comply may disqualify an entry.

ACPA Awards Committee reserves the right to determine entry eligibility.

## Judging and Judging Criteria:

A panel of qualified judges will evaluate entries for all projects based on the work completed by the entering organization(s). Finalists and winners are selected based on overall project excellence. Judges will evaluate and compare projects based on the following Judging Criteria:

- Public involvement and education
- Use of new materials or large diameter concrete pipe
- Use of new technologies
- Innovation
- Complexity
- Cost effectiveness
- Environmental benefits

Note: Projects may or may not involve all seven of the above criteria.

## Submission Guidelines:

Each entry must include:

A completed Entry Form; forms must be signed by the state DOT having jurisdiction over the project.

A brief narrative describing the project as it relates to the Judging Criteria previously listed. The narrative should not exceed five pages. Submit at least 3 photographs. All photographs must be high resolution, 300 DPI or better. Additional photographs and other relevant material may also be submitted. The complete application packet must not exceed ten pages.

## Due Date: March 1, 2011

Mail Application packets to:

Josh Beakley

American Concrete Pipe Association

1303 W. Walnut Hill Lane, Suite 305

Irving, TX 75038

## Public Relations:

The winning project will be honored during a special breakfast held by the ACPA in conjunction with the AASHTO Bridge and Structures Subcommittee Meeting in Virginia. The winning project will be featured in an upcoming issue of Concrete Pipe News. The Awards Committee will issue a press release to publicize the Awards Program and the award-winning project.

## Special Requirements:

All entries will be recognized at the ACPA breakfast during the AASHTO Bridge and Structures Subcommittee Meeting. All applicants, regardless of whether they received an award, may present graphic panels for their projects. Applicants should provide a 32" x 40" board (standard crescent matte board) mounted on foam core. The panel should include text such as the Project Title, State DOT, and a brief list of project highlights. Type size no smaller than 18 point is recommended. Photos, other graphics, and captions that illustrate project features should also be incorporated. The finished graphic panel should "tell a story" about the project. ACPA's Awards Committee recommends simple, inexpensive production for these panels.

**Award Winner** will be invited to make a brief slide presentation highlighting their project during the ACPA breakfast. Further information will be provided with the notification of award in May.
